The dog ran fast.

Please stop and walk.

He and I are friends.

Will you help me read?

**TASK 2.910: FORMING A GENERAL UNDERSTANDING, ANALYSIS OF
CONTENT AND STRUCTURE****2.910A-B - Read Passages****Story 1: Rob's Future**

Rob is in the 12th grade and he is not sure what he should do after he graduates from high school. He talked to his parents and asked them what he should do. He also talked with one of his teachers at his high school, Mrs. Brown. She told him that going to Tanana Valley College in Fairbanks would be a good thing to do. She also said that he could study welding there and would be good at it. Rob told Mrs. Brown about the shop classes he had taken at school, and how he liked to build things. Mrs. Brown said she would help him fill out his application for college. Rob thought that would be a big help for him since he wasn't sure he knew how to fill out an application. Rob was excited about going to college. But then there was a problem, how was he going to pay for college? He knew that his parents did not have enough money to pay for college. He talked to Mrs. Brown about how to pay for college. She told him there was a scholarship he could apply for. Rob didn't know what a scholarship was. Mrs. Brown said that a scholarship was free money that students may be able to get to help them pay for college. Now Rob was excited about his future!

TASK 2.910: FORMING A GENERAL UNDERSTANDING, ANALYSIS OF CONTENT AND STRUCTURE

Item 1

2.910A - Story 1: Rob's Future

Parents	Rob	Boy
---------	-----	-----

Item 2
